Excision/Alteration: Yes.

Reason(s) for Excision:

One excision is required to remove a scene that results in the video recording promoting and supporting the use of urine in association with sexual conduct.

The scene shows a woman urinating over the body of a man as part of a range of sexual activity between two men and the woman in a bathtub. After the men's ejaculation is shown, a new shot appears of the woman in close focus emitting a stream of urine over the body of one of the men. The camera focuses on this and her intermittently rubbing his penis for over a minute. The scene is clearly intended for sexual arousal, and promotes and supports the use of urine in association with sexual conduct.
